Midnight Mon. October 18, 1948

Dear Bill:

Just finished 153 reports (six weeks) and copies of State Statistical Report. Shall turn my attention to this. It's too good to be true!

A rainy Sunday afternoon (Yesterday) I spent "rummaging" as you say on third floor; determined to not leave the "Eagle's Nest" until I found something.

On the very bottom of another pile I found two volumes (thin but compact and important), I was really hunting for that receipt book and I know I have it!

However, what I did find was more valuable than that receipt book because they contain not only the enclosed copied information but also the articles shipped. The statements are in full. It is marked a volume of "Bills-Lading".

Call me and we will try and arrange for you and your friend to come and copy some of the information from these two smaller volumes. I enclose a sample which took me from twelve to one to copy. Lost some sleep!!

Sincerely and hastily,

M.R.I.
